**Part 3**

- 11.1 Emma                              B
- 11.2 Fin                                D
- 11.3 Chris                             A
- 11.4 Joyce                             C

12.

	Procedure	Reason
i.	allow bite to bleed freely	some of the poison may come out
ii.	clean and disinfect area	stop it going septic
iii.	remove any rings/jewellery	hand may swell up
iv.	wrap bandage above elbow	need to immobilize hand// stop hand from moving
v.	put gauze plaster over bite	stop the bleeding
vi.	keep bite above heart level	stops hand swelling

13.

	Action	Danger
	suck poison out	(poison) gets into mouth
	cut the wound	can make injury worse
	drink alcohol	can make blood flow faster
	tie bandage <u>too</u> tight	can cut off blood flow
	put ice-pack on wound	(may) damage hand
	find the snake	(may) be attacked again

14.     

B	✓
---	---

15.1	Name	wolf (snake)	
15.2	Poisonous	No	✓
